

REPSOL ISPLEN PB150G2M

REPSOL ISPLEN PB150G2M is a phthalate free medium fluidity heterophasic copolymer, characterised by its good balance of properties: excellent impact strength, even at low temperatures, good stiffness and easy processability. Due to its excellent flow properties is very suitable to fill complex or large moulds with long flow paths.

Applications

The particular characteristics of REPSOL ISPLEN PB150G2M offer a multi-purpose grade used for packaging and in a wide variety of appliance industries. Typical applications are:

- Crates, containers, pails and buckets for domestic and industrial uses.
- Tool boxes and organizers with integral hinge.
- Battery boxes and other automotive components.
- Appliance industries: stadium seats, flooring slats, farm equipments, toys, sports...

Recommended melt temperature range from 190 to 250°C. Processing conditions should be optimised for each production line.

Storage

REPSOL ISPLEN PB150G2M should be stored in a dry atmosphere, on a paved, drained and not flooded area, at temperatures under 60°C and protected from UV radiation. Storage under inappropriate conditions could initiate degradation processes or undesired migration of additives included in its formulation which may have a negative influence on the processability and properties of the transformed product.
